How many green base stations are there in Cairo Communications

Overview

Is Telecom Egypt implementing a green mobile site?

Telecom Egypt, in collaboration with Huawei, has put in service the first green tower in Africa. The Managing Director and CEO of Telecom Egypt, Adel Hamed, stated that this is an unprecedented implementation in Egypt, highlighting the efforts and timely execution of the project according to the highest international green quality standards.

Why is Telecom Egypt installing a green tower?

Through this cooperation, Telecom Egypt becomes the first operator in Africa to install a green tower. The material used for building the tower emits less CO2 than steel, the alternative.

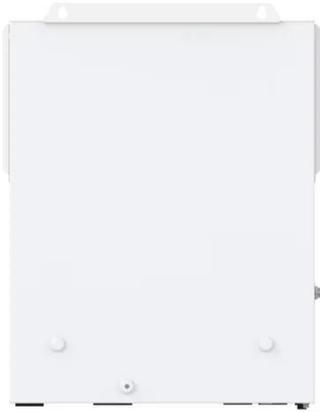

How much less energy do Telecom Egypt's green sites consume?

Telecom Egypt's green sites also feature the latest Radio Access Network technologies, such as radio units optimized to offer top performance with 40% less energy consumption than traditional sites.

Are Telecom Egypt's green sites better than traditional sites?

Telecom Egypt's green sites feature the latest Radio Access Network technologies, such as radio units optimized to offer top performance with 40% less energy consumption than traditional sites.
