

## EQACC SOLAR

# How many types of solar tiles are there

## Overview

---

What are the different types of solar panels?

The six types in this guide are monocrystalline solar panels, polycrystalline solar panels, thin-film solar panels, PERC solar panels, solar tiles and CPV solar panels. To make it easier to decide which solar panels will suit you best, the table below offers an overview of the main pros and cons of different solar panel types:.

What are solar tiles?

Solar tiles are roofing materials that can produce energy directly from sunlight. Solar tiles are integrated into the roof itself and function as both a roofing substance and a source of energy, as opposed to conventional solar panels, which are mounted on top of an existing roof.

What are the different types of solar tiles?

Solecco Solar – Solecco Solar offers tiles in eight different colours, from smooth grey to terracotta and old English dark red. A 4kW system will cost around £12,000. Edilians solar tiles – Edilians make two types of solar tiles, Solar Max and HP 10 Solar.

Are solar roof tiles right for You?

Solar roof tiles are ideal for those who want the benefits of renewable energy without the traditional look of solar panels. Benefits include, but are not limited to: Lower energy bills: Solar panels reduce reliance on grid electricity, significantly cutting monthly energy costs.
