How much does it cost to install solar panels on the roof

Overview

How much do solar panels cost?

The price of solar panels changes depending on where you live, but the average for installation is just under \$29,000 or \$2.75 per watt. On the high end, we talked to a solar customer in Hawaii who spent \$100,000 going solar. Dion in Nevada said their 10-kW system cost about \$20,000, which is about the national average price for a 7-kW system.

How much does a solar roof cost?

For example, Tesla Solar Roof costs around \$75,000 for a complex design. However, if you have a smaller home or want to install only a few integrated solar shingles, you might be able to finish your project for as little as \$15,000, with all fees included. A solar roof can save you money on your energy bills, so you recoup the cost in the long run.

Are solar installations cheap?

Solar installations aren't cheap, but the actual equipment is a relatively small part of the total cost. It's only 35% of your total installation cost, according to the US Department of Energy. Soft costs, also known as the hidden costs of installing solar, are nonhardware costs, and they make up 65% of your total solar costs, according to the DOE.
