# **Huawei Bern 100mw solar module custom price**

## Overview

---

What is a 100MW solar module line?

A 100MW solar module line is an automatic production line made up of quality individual equipment, like glass loading equipment, stringer machine, layup machine and laminators, to reduce manual cost to the maximum. The production line is also equipped with a MES system for production data monitoring to benefit the stable and reliable production.

What is the working noise of a 100MW solar module line?

Working noise:  $\leq 70\text{dBA}$ . A 100MW solar module line is an automatic production line made up of quality individual equipment, like glass loading equipment, stringer machine, layup machine and laminators, to reduce manual cost to the maximum.

How much does a solar panel installation cost?

Installation charges typically range from 20% to 30% of the total system price. Professional installers follow local restrictions and optimize panel placement for best efficiency. The small size of the excellent solar panel system makes installation easier, lowering labor time and associated expenses.
