# **Huawei Energy Storage Island Construction Project**

## Overview

---

Is Huawei building a microgrid power station in Saudi Arabia?

An advertisement in the NEOM region in Tabuk, Saudi Arabia. Credit: SaudiArabiaPhotography. Huawei has built the world's largest microgrid power station, which has the capacity to generate one billion kilowatt-hours (kWh) of power a year and provide power to Saudi Arabia's Red Sea New City project.

Will Huawei power Saudi Arabia's Red Sea project?

Huawei has developed the world's largest microgrid power station which delivers 1 billion kWh power supply per year. The new solution will play a significant role in Saudi Arabia's Red Sea project and provide several green electricity benefits.

Does Huawei provide green power to the Red Sea project?

Huawei has been working on the technology for ten years. Huawei said that its microgrid solution has been "providing 1kWh of green power supply to the Red Sea project since September 2023". Saudi Arabia is relying on Huawei to provide power for its Red Sea project.

Will Huawei fusion solar power Red Sea city's off-grid energy needs?

Huawei's FusionSolar Smart String Energy Storage Solution will power the Red Sea City's off-grid, clean energy needs. The Red Sea Project, a key part of SaudiVision2030, is now the world's largest microgrid with 1.3GWh storage capacity.
