Huawei Hungary Electrochemical Energy Storage Appointment

Overview

Where is the largest battery energy storage system in Hungary?

Image: MET Group. IPP MET Group has put a 40M/80MWh BESS in Hungary into commercial operation, deployed using technology from Huawei. The 2-hour battery energy storage system (BESS) is the largest in Hungary, Switzerland-headquartered MET Group said, deployed at its Dunamenti thermal power plant in Százhalombatta, near Budapest.

How much does a new energy storage battery cost in Hungary?

According to portfolio.hu, the project is estimated to cost HUF 8.5 billion (EUR 21 million), with a capacity of 60 MWh. Currently, Hungary's entire energy storage capacity stands at 30 MW. The new storage battery is set to be operational by 2025, making it easier and more cost-effective to store renewable energy.

What is Hungary's energy storage capacity?

Currently, Hungary's entire energy storage capacity stands at 30 MW. The new storage battery is set to be operational by 2025, making it easier and more cost-effective to store renewable energy. This development is expected to enable the green energy sector to make a greater contribution to Hungary's energy mix.

Why should you invest in a Huawei PV+ESS system?

Huawei offers industry-leading grid-forming technology and safe, reliable battery energy storage systems. Our intelligent, integrated PV+ESS solutions are designed to enhance grid resilience and support investors in maximizing long-term value.
