

EQACC SOLAR

Huawei dual power solar inverter

Overview

What is a Huawei solar inverter?

Huawei is a leading global provider of solar inverters, offering innovative and reliable solutions for converting solar energy into usable electricity. Huawei solar inverters are designed for both residential and commercial applications, with a range of power ratings and advanced features for maximum energy production and management.

Why should you choose a Huawei inverter?

Huawei inverters offer high efficiency, reliability, and smart management features for optimal solar performance. Rigorously tested and certified, they ensure smooth operation under demanding conditions, making them the ideal choice for maximising solar energy production.

Which solar inverter is compatible with Luna2000 Huawei battery system?

The SUN2000-L1 series ranges from 2kW to 6kW and features 'dual MPPTs' with a wide operating voltage range of 120V to 600V. Like the first-generation inverter, the new FusionSolar SUN2000-L1 series is a hybrid or battery-ready inverter compatible with the LUNA2000 Huawei battery system described in detail below.

Which solar systems does Huawei offer?

Huawei also offers the FusionSolar Smart PV Solution, which combines Huawei solar inverters with smart monitoring and management systems for maximum energy efficiency and optimization. The FusionSolar Smart PV Solution is ideal for commercial and utility-scale solar installations.
