# **Huawei s energy storage batteries sold in the Netherlands**

## Overview

---

Do Dutch home battery purchases keep driving battery storage installations?

Dutch home battery purchases keep driving battery storage installations. According to Dutch New Energy Research's Nationaal Smart Storage Trendrapport 24/25, 410 MWh of new battery capacity was installed in the Netherlands in 2023 - 1 MWh is enough to power a couple hundred homes for a day.

What happened to battery storage in the Netherlands in 2023?

GREEN+ - 2023 saw a 260% increase in installed battery storage capacity in the Netherlands. We dig into the numbers in this new episode of Behind the Figures. Dutch home battery purchases keep driving battery storage installations.

What are Huawei's intelligent lithium battery solutions?

Huawei's intelligent lithium battery solutions provide dynamic peak shifting, transforming traditional backup power systems into efficient energy storage solutions that enhance system flexibility and reliability.

How much battery storage is installed in the Netherlands?

The latest Trendrapport figures show how only 1.7% of the European battery storage is installed in the Netherlands. With the average battery storage capacity per capita in Europe being 48.4 Wh, the Netherlands is below the average with 34.9 Wh per person.
