## Overview

---

This guide gives a clear, brand-neutral comparison of SolarEdge, Sigenergy SigenStor and EcoFlow PowerOcean – three of the main hybrid solar and home battery ecosystems now appearing in Ireland. Which battery energy storage systems are available in Ireland?

The Kylemore Battery Energy Storage System in Dublin went into operation in 2023 and has the capability of providing 30MW of fast-acting storage. The South Wall Battery Energy Storage System went live in 2023 and has the capability of providing 30MW of fast-acting energy storage.

How can a battery energy storage system improve Ireland's power grid?

When the demand for electricity is high, the stored energy from a battery energy storage system can be released into the grid to help meet the demand. This can contribute towards reducing Ireland's reliance on fossil fuels and improving the stability of the power grid.

Where is Ireland's First 4-hour battery energy storage system located?

Co-located at Statkraft's Cushaling Wind Farm in Co Offaly, this project is Ireland's first 4-hour battery energy storage system. Located in Co Derry, construction of this project began in 2025. This project is one of four Synchronous Compensator projects currently being developed by Statkraft Ireland.

How many MW of battery storage capacity are there in Ireland?

We currently have more than 300MWs of battery storage capacity in operation in Ireland, making it one of the largest battery portfolios in Europe. We plan to develop a pipeline of large scale battery projects, as well as additional renewable enabling technologies.
