---

When did Ek start making air conditioners?

1964 EK manufactured its first air-cooled heat pump unit. 1965 EK promoted condensed thermal recovery of air-cooled units. 1968 EK produced air handling units and became into the leading brand of air conditioners in Italy. 1978 EK launched water source/geothermal heat pump units in Europe.

Who is euroklimat (Ek)?

EUROKLIMAT (EK) was established in 1963 in Italy. For the past half a century, it has become famous as an energy-saving air-conditioning manufacturer in Italy and globally. Continuous innovation, new product development and top manufacturing quality are the driving force behind this growth.

What is a solar air conditioner?

Solar air conditioners are solar-powered air conditioners designed to efficiently and effectively provide cooling to a room. Solar air conditioners use solar panels to power the air conditioner, and solar hotspot energy gives much power to the air conditioner's condenser and refrigerant.

Are solar-powered air conditioners sustainable?

When it comes to cooling your space sustainably, solar-powered air conditioners offer a compelling solution. These units harness renewable energy to deliver efficient climate control, making them ideal for eco-conscious consumers. From portable models to those designed for vehicles, there's a variety of options to suit your needs.
