Italian Energy Storage Container Two-Way Charging

Solar Panel

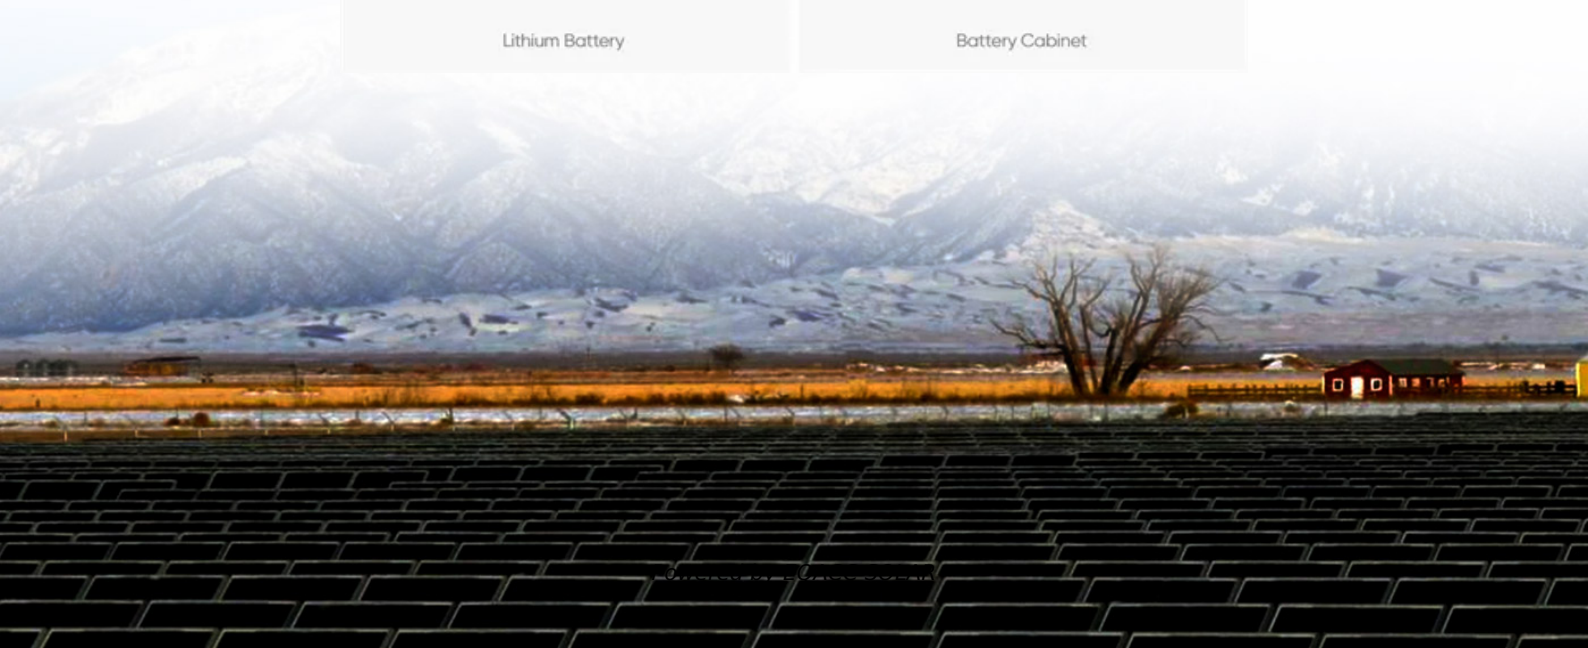

Hybrid Inverter

Lithium Battery

Battery Cabinet

Overview

Does Italy have a new battery energy storage system?

Italy has taken a major step forward in its energy transition efforts, giving the green light to 361 MW of new battery energy storage systems (BESS) spread across three regions—Lazio, Puglia, and Sardinia.

How is Italy transforming its energy system?

Italy, like much of Europe, is undergoing a rapid transformation in how it generates and distributes energy. With solar PV and wind power ramping up quickly, grid operators are increasingly reliant on energy storage systems to manage variability and avoid curtailment of renewable energy during periods of oversupply.

What is Copenhagen Infrastructure Partners doing with ikigai energy & Agnoli giuggioli?

Copenhagen Infrastructure Partners has partnered with a joint platform of Ikigai Energy and Agnoli Giuggioli to deploy 2.3GW ESS in Italy.

When did Italy get a new energy policy?

Final approvals were issued by Italy's Ministry of the Environment and Energy Security (MASE) on August 5th, delivered through multiple Decreti Direttoriali (Directorial Decrees).
