

**EQACC SOLAR**

# **Jerusalem Energy Storage Project Owner**

## Overview

---

Azrieli Group partners with Shikun & Binui for a groundbreaking solar-plus-storage project, advancing Israel's renewable goals and securing clean energy for 20 years. How many high-voltage energy storage projects are there in Israel?

To this end, the Israeli network operator Nega Company ran a tender in July 2024 which attracted offers from 11 bidders for the construction and operation of 29 high-voltage energy storage projects, totaling approximately 4 GW with each project offering a storage capacity for at least four hours.

How will Ormat's Energy storage contracts impact Israel?

"These energy storage contracts mark the Company's first owned project in Israel, and we look forward to continuing to work with Allied as Ormat's capabilities and assets will now help drive Israel's efforts to achieve its renewable energy and energy continuity goals," said Doron Blachar, CEO of Ormat Technologies.

Will Israel achieve a 40% share of renewables by 2030?

Israel is aiming to achieve a 40% share of renewables in the country's power mix by 2030. This objective entails the installation of 18 GW to 23 GW of solar projects, coupled with 5.5 GW/33 GWh of storage capacity.

How does a battery deal work in Israel?

Under such deals, the offtaker guarantees a fixed payment in return for complete trading control of the battery. Israel is aiming to achieve a 40% share of renewables in the country's power mix by 2030.
