Kingston Energy Storage Project Company

Overview

Where is Tesla's Energy Storage Super Factory located?

Situated in Shanghai's Lin-gang Special Area, the plant marks Tesla's inaugural venture into an energy storage super factory project outside the United States, showcasing the company's rapid advancements in the energy storage sector.

Where is Tesla's gigawatt-hour-scale energy storage station located?

The gigawatt-hour-scale energy storage station is to be located in the Lin-gang Special Area of China (Shanghai) Pilot Free Trade Zone, as per the deal signed by Tesla, the administrative committee of the Lin-gang Special Area, the people's government of Shanghai's Fengxian District, and China Kangfu International Leasing Co., Ltd.

Will Tesla's first grid-side energy storage station be built in China?

It will be Tesla's first grid-side energy storage station to be built on the Chinese mainland. Dong Kun, general manager of Tesla China's energy business, said the station, once launched, will participate in electricity spot trading, helping balance peak and off-peak power demand in the local grids and enhance grid stability.

How big is Tesla's energy storage capacity?

Its energy storage products are operating in over 65 countries and regions globally, with total deployment exceeding 10 gigawatt-hours. In 2023, Tesla's total energy storage capacity reached 14.7 GWh, with profits nearly quadrupling.
