

EQACC SOLAR

Kuala Lumpur double glass solar curtain wall size

Overview

What is a photovoltaic curtain wall?

Building Integrated Photovoltaics At Onyx Solar we provide tailor-made photovoltaic glass in terms of size, shape, transparency, and color for any curtain wall design. Photovoltaic curtain walls transform any building into a self-sufficient energy infrastructure and enhance the building's architectural design.

What is curtain wall glazing?

The curtain wall method of glazing allows glass to be used in large uninterrupted areas creating consistent attractive facades. The flexibility in choice of NSG Group products allows the designer to control every aspect of the performance from thermal to solar considerations and ultimately the design statement for the building.

What size are curtain wall panels?

Curtain Wall Panel Sizes are manufactured with a variety of sizes with panel widths between 2'-8' (.61-2.44 m) and overall panel heights from 2'-20' (.61-6.1 m). Glazed curtain wall panels have thicknesses between .25"-1" (6-25 mm). How are curtain wall systems structurally supported?

.

What is the U-value of a double glazing unit?

The insulation value, commonly referred to as the U-value, is dependent on the configuration this type of glass includes - thickness and spacer width. Double glazing units incorporating solar control products such as Low-E, Soft-coated Low-E and reflective glass will significantly reduce:
