Kyiv solar Glass Project

Overview

Will Ukraine build a float glass factory in Kyiv by 2028?

Ukraine is set to build a float glass manufacturing plant in the Kyiv region by 2028. The NovaSklo project aims to construct a large-scale float glass facility in Ukraine. The initiative aims to reduce Ukraine's dependence on imports and attract investment into the country's industrial development, even amid the ongoing war.

Why is Ukraine launching a glass manufacturing project?

The Ukrainian government is also supporting the initiative. Andriy Teliupa, Deputy Minister of Economy of Ukraine, said: "Glass manufacturing is a critical sector within the processing industry, playing a strategic role in construction, industrial production, and the country's post-war recovery."

What is the novasklo project?

The NovaSklo project aims to construct a large-scale float glass facility in Ukraine. The initiative aims to reduce Ukraine's dependence on imports and attract investment into the country's industrial development, even amid the ongoing war. The project is managed by Ukrainian investment company Effective Investments (EFI) Group.

What will novasklo do for Ukraine?

NovaSklo will be the first plant in Ukraine capable of meeting demand while delivering products to international quality standards. Our facility will unlock the full growth potential of the country's glass industry. Our partners are global leaders in production line design, energy-efficient technologies, and workforce training.
