Kyiv solar container battery export tariff

Overview

What is Ukraine's import tariff schedule?

According to Article VII of the Law of Ukraine on Foreign Economic Activity, Ukraine's import tariff schedule includes three rates of import duties: Full - The full rate of import duties can be from two to 10 times higher than the Most Favored Nation rate.

Will China impose tariffs on lithium-ion EV batteries?

An interesting issue will be the imposition of tariffs. There are existing tariffs pursuant to Section 301 of the Trade Act of 1974 on some Chinese-origin lithium-ion EV batteries and non-lithium-ion battery parts, which were increased to 25% in September 2024.

How does tariff risk affect a battery energy storage system (BESS) project?

Mitigating tariff risk in battery energy storage system (BESS) projects is crucial for ensuring project financial viability, as tariff changes can significantly affect cost structures and overall project economics.

Why are there no tariffs on solar panels & inverters in the UK?

In the UK we currently benefit from no trade tariffs on imports of solar panels, inverters and battery storage. This helps keep costs down for households and business choosing to install these products. As part of his suite of tariffs, Trump has imposed an eye-watering 145% tariff on goods exported from China to the USA.
