

EQACC SOLAR

Kyrgyzstan glass solar sun room

12.8V 100Ah

Overview

What is Kyrgyzstan's solar energy project?

The solar energy project aligns with Kyrgyzstan's Energy Sector Development Strategy, which aims to develop 1,500 MW of renewable energy by 2035. This strategy, supported by the World Bank, seeks to diversify the energy sector, increase domestic electricity generation, and reduce greenhouse gas emissions.

Will Kyrgyzstan develop new solar power plants in Batken & Talas?

Kyrgyzstan partners with the IFC to develop new solar power plants in Batken and Talas, aiming to power over 125,000 homes and advance its renewable energy goals.

Does Kyrgyz Republic have a solar energy project?

The Kyrgyz Republic is making significant strides in solar energy development. The recent signing of a memorandum of understanding between the Ministry of Energy and the Ministry of Economy and Commerce with the International Finance Corporation (IFC) marks a key step forward in the second phase of a major solar power project.

When will Kyrgyzstan's solar energy project start?

The second phase of the tender is expected to commence soon. The solar energy project aligns with Kyrgyzstan's Energy Sector Development Strategy, which aims to develop 1,500 MW of renewable energy by 2035.
