# Large mobile energy storage vehicle in Mombasa Kenya

## Overview

---

Who is the implementing agency for the Kenyan battery energy storage system?

The Kenya Electricity Generating Company PLC (KenGen), has been designated to be the Implementing Agency for the Kenyan Battery Energy Storage System (BESS), which is part of the Kenya Green and Resilient Expansion of Energy (GREEN) program, funded by the World Bank.

How many electric vehicle charging stations are there in Kenya?

An electric vehicle being charged. (Photo: CBC) Kenya Power has unveiled plans to install 45 electric vehicle (EV) charging stations across six counties within the next 12 months, a move aimed at bolstering the country's transition to sustainable transport.

How can the port of Mombasa transition to green energy?

Technical support for a feasibility study to identify viable green energy solutions at the Port of Mombasa lays a major foundation for such a transition. This project shall create new job opportunities around green technologies and renewable energies and associated value chain resulting in increased income levels and poverty reduction.

Why is Kenya Power launching e-mobility?

"Kenya Power is committed to driving the shift to electric mobility as part of our broader goal to cut carbon emissions," said Joseph Siror, the company's managing director and CEO, speaking at the 3rd Annual E-Mobility Conference and Expo in Nairobi. "This network will provide the backbone for motorists and spur wider EV uptake."
