Does Portugal need a power grid stability & energy storage solution?

Portugal: The country aims to source over 90% of its power from domestic renewables by 2030, with significant contributions from wind and hydroelectric power. Despite these advancements, the blackout revealed the need for improved grid stability and energy storage solutions to handle unexpected disruptions.

What happened in Portugal during a power outage?

Portugal: Cities such as Lisbon, Porto, Coimbra, and Braga were impacted. The outage also caused disruptions in public transportation, communication networks, hospitals, and commercial centers, leading to widespread challenges for residents and businesses alike.
