# **Lithium power station factory in Latvia**

## Overview

---

Where is the first battery energy storage system in Latvia?

On November 1 Latvia's largest wind energy producer Utilitas Wind opened the first utility-scale battery energy storage battery system in Latvia with a total power of 10 MW and capacity of 20 MWh in Targale, Ventspils region.

Are electric vehicle batteries coming to Latvia?

Swedish tech company Anodox Energy Systems has announced plans to produce electric vehicle batteries in Latvia, with the first factory in the Port of Riga expected to be operational by December 2022. A second factory for rapidly growing LFP cell technology will be established soon after.

How many power stations are there in Latvia?

This article lists all power stations in Latvia. Additional to the three major hydroelectric plants, there are approximately 150-160 operational hydroelectric plants with capacity below 5 MW each. There are 19 operational wind farms in Latvia with capacity above 0.25 MW and 18 wind farms with capacity below 0.25 MW.

Which are the biggest power stations in Lithuania?

The following page lists the biggest power stations in Lithuania: Ignalina Nuclear Power Plant (two RBMK reactors, decommissioned in 2009, located at 55.6055297, 26.5624094), Elektrėnai Power Plant (located at 54.7697761, 24.647913), Klaipėda Geothermal Demonstration Plant (located at 55.6844741, 21.2017894), and Kaunas Hydroelectric Power Plant (located at 54.8739893, 23.9994836).
