Lithium power station factory in Sydney

Overview

On Octo, eLumina officially opened Australia's first factory capable of producing community lithium batteries and EV chargers. Where is Australia's first lithium battery factory located?

On Octo, eLumina officially opened Australia's first factory capable of producing community lithium batteries and EV chargers. Located in Yatala on the Gold Coast, the US\$20 million Manufacturing and Development Centre marks a significant step toward Australia's energy transition while creating up to 300 local jobs.

What is Australia's growing lithium-ion battery industry?

Australia's growing lithium-ion battery industry, driven by the increasing demand for renewable energy and electric vehicles. The Australian lithium-ion battery market is projected to grow at a compound annual growth rate of 16.90% during 2024-2032. In this article, we'll explore the top 10 lithium-ion battery manufacturers in Australia.

What are the top 10 lithium-ion battery manufacturers in Australia?

In this article, we'll explore the top 10 lithium-ion battery manufacturers in Australia, such as; Energy Renaissance, Magnis Energy Technologies, Custom Lithium, Lithium, Batteries Australia, Smart Lithium Batteries, Lithium Battery Systems, Novonix, Alpha-ESS, Enerdrive, dan VSPC. Last Updated on Febru.

Where is Australia's first community battery factory?

Based on the Gold Coast, 75 km south of Brisbane, the 2,500 square metre factory is Australia's first community battery manufacturing facility and is set up to produce 300 lithium battery EV chargers a year.
