Lithuanian Mobile Energy Storage Container Single Phase for Steel Plants

Overview

What is a new energy storage project in Lithuania?

The plan involves direct grants to support investments in the deployment of at least 1,200 MWh of new energy storage systems across Lithuania. The tender will be administered by the Environmental Project Management Agency (EPMA). The deadline for applications is J.

Will EU grant a battery storage project in Lithuania?

European Commission delegation visiting a Fluence battery storage project in Lithuania. Image: Energy Cells via LinkedIn. Lithuania can move ahead with a scheme to provide €180 million (US\$200 million) in grants to energy storage projects after it was approved by the EU.

How many battery energy storage systems are there in Lithuania?

The four battery energy storage systems (BESS), 50MW/50MWh each, have been handed over by Fluence and are now providing services to Litgrid, the transmission system operator (TSO) in Lithuania. They followed a smaller, 1MW/1MWh pilot project to test the use case back in 2021.

Why is Lithuania launching a major energy storage procurement exercise?

Only a day before cutting ties with the Russian power grid, the Baltic state announced the launch of a major energy storage procurement exercise. Lithuania has announced a EUR 102 million (\$ 105 million) energy storage tender in a bid to procure balancing services to the transmission system operator and ensure the resilience of its grid.
