

**EQACC SOLAR**

# **Long-life Folding Containers for Highways**

**FLEXIBLE SETTING OF  
MULTIPLE WORKING MODES**

## Overview

---

What are akypak® foldable large containers for non-palletisable loads?

AkyPak® foldable large containers for non-palletisable loads will streamline your logistics operations. Also known as FLCs, Pallet Boxes or Sleeve Packs, these long-lasting and environmentally friendly containers consist of a pallet base, a foldable sleeve, and a lid.

Why do you need a lid for a foldable container?

Our foldable boxes come with a range of customizable features, offering flexibility for various industries and optimizing your logistics operations. Lids for foldable containers provide essential protection for contents, keeping items safe from dust, moisture, and contaminants during storage and transportation.

What is a folding box?

Foldable boxes offer the perfect combination of flexibility, durability, and space efficiency. The short sides of the upright folding container are hinged at the base and the long sides are hinged in the middle.

How much space does an empty folding container save?

As an empty folding container can save a volume of up to 80 percent compared to an upright container, a maximum of five times as many empty folded containers can be stored on the same floor space than would be possible with rigid containers.

George Kochanowski is CEO of Staxxon, a company that has broken new ground by designing shipping containers that fold like an accordion and can be stacked on ships or in ...

## Foldable shipping containers an answer to port congestion?

Your Professional background?What Causes 'Empty Running'?Who Inspires You?Empty containers clog roads and ship terminals, causing port congestion

and leaving little space to unload ships. This then forces many ships to wait offshore, wasting resources and slowing the supply chain to a crawl. The problem disappears only as the ships sail away. See more on supplychaindigital
