Overview

What are solar roof tiles?

Solar panels are designed more and more with their architectural integration in mind. Solar roof tiles are a perfect solution, since they constitute a range of active technological glasses that have the property of generating electrical energy and can be used both in newly built buildings and in renovations.

Can a solar roof be integrated with a planum tile?

Our Solar tile combines perfectly with our Planum ceramic tile, so the system will be fully integrated with the roof. Planum Solar tiles are made from premium mono crystalline cells and the glass technology that surrounds the is very sturdy and durable in extreme weather conditions.

What is a combined solar roof tile and a battery solution?

The combined solar roof tiles and a battery solution offers an easy-to-use monitoring system so you can track your solar roof system's performance, monitor the amount of energy it stores and how much you're saving on your energy bill.

Who is technisolar?

Rooftops, Carports, customs projects - we power your energy, sustainably. Technisolar is a company specialized in the design and manufacture of mounting systems for solar panels. Leveraging its technical expertise, the company develops customized and innovative solutions suited for all types of rooftops and photovoltaic carports.
