

## EQACC SOLAR

# Macedonia light-transmitting series bipv solar glass components

## Home Energy Storage (Stackble system)

High Efficiency

Easy installation

Safe and Reliable

Perfect Compatibility

### Product Introduction

- Scalable from 10 kWh to 50 kWh
- Self-Consumption Optimization
- Integrated with inverter to avoid the compatibility problem

- LFP battery, safest and long cycle life
- Stackable design,effortlessly installation
- Capable of High- Powered Emergency- Backup and Off- Grid Function

## Overview

---

What is the solarvolt TM BIPV glass system?

Seamlessly integrated into the building structure, the Solarvolt™ BIPV glass system unveils new possibilities for renewable power generation and glass design. Click highlighted areas to explore.

What is a BIPV glass system?

Doubling as a building component to enhance sustainability and energy efficiency in commercial buildings, the Solarvolt™ BIPV glass system has been honored for delivering high performance, aesthetics and CO2-free power generation while replacing conventional building materials. Complement classic building materials — or replace them.

What are BIPV solar panels used for?

BIPV solar panels can be used as an additional power source and alternative material in architecture to achieve future design for a comparable to standard materials price. Glass / glass solar panels are the most commonly used technology in energy generating buildings.

What is building integrated photovoltaics (BIPV)?

1. Introduction Building-Integrated Photovoltaics (BIPV) is an efficient means of producing renewable energy on-site while simultaneously meeting architectural requirements and providing one or multiple functions of the building envelope , .

### ENERGY STORAGE SYSTEM

**Product Model**  
HJ-ESS-215A(100KW/215KWh)  
HJ-ESS-115A(50KW 115KWh)

**Dimensions**  
1600\*1280\*2200mm  
1600\*1200\*2000mm

**Rated Battery Capacity**  
215KWH/115KWH

**Battery Cooling Method**  
Air Cooled/Liquid Cooled

## Transparent BIPV Modules: Blending Light, Architecture, and ...

Unlike opaque solar panels that are often added as afterthoughts, transparent BIPV modules function as both core building envelope components (e.g., glass curtain walls, skylights) and ...
