# Madrid PV container BESS price

## Overview

---

How much does a Bess system cost?

As of most recent estimates, the cost of a BESS by MW is between \$200,000 and \$450,000, varying by location, system size, and market conditions. This translates to around \$200 - \$450 per kWh, though in some markets, prices have dropped as low as \$150 per kWh. Key Factors Influencing BESS Prices.

What is a Bess container?

BESS containers are more than just energy storage solutions, they are integral components for efficient, reliable, and sustainable energy management. BESS containers are designed for safety and scalability. Their ability to be stacked and combined allows for customization according to project size.

How much does LCoS cost?

Compare this to Australia's latest 30MW/30MWh installation requiring \$340/MWh due to strict fire safety regulations. Industry leaders like Habitat Energy now achieve 92% round-trip efficiency in optimized systems, effectively lowering Levelized Cost of Storage (LCOS) to \$82-95/MWh in competitive markets.
