## Overview

---

What is a Falcon solar street light?

Series Falcon solar street led light combined with Lithium battery and Mono Solar Panels to ensure the long life and high efficacy of the solar street light system.

Are solar powered street lights sustainable?

You see, solar powered street lights offer more than free-of-charge lighting, as their benefits include easy off-the-grid installation, low maintenance, a quick payback period, and more. Also, it goes without saying that there is no other lighting solution that can match the sustainability features of a solar lamp.

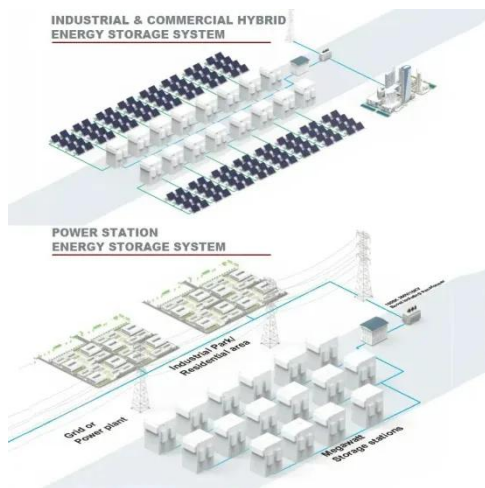

What are solar LED street lights?

Solar LED lights street is installed on street poles and powered by solar panels. The use of solar street light with battery are both economical and environmentally friendly. It saves municipalities huge amounts of money on their electricity bills and reduces the risks associated with dark streets.

What are the different types of street lights in India?

In India, there are three types of street lights available: 1. All in One Solar Street Light - This light is compact where all the components are housed inside a single unit. 2. Semi Integrated Solar Street Light - In this, battery, fixtures, luminary and controller are molded into a single unit and the solar panel comes as a separate unit.
