

EQACC SOLAR

Make a liquid-cooled solar container battery station cabinet

Overview

What is GSL-Bess battery storage system?

GSL-BESS-3.72MWH/5MWH Liquid Cooling BESS Container Battery Storage 1MWH-5MWH Container Energy Storage System integrates cutting-edge technologies, including intelligent liquid cooling and temperature control, ensuring efficient and flexible performance.

What is Vericom energy storage cabinet?

Vericom energy storage cabinet adopts All-in-one design, integrated container, refrigeration system, battery module, PCS, fire protection, environmental monitoring, etc., modular design, with the characteristics of safety, efficiency, convenience, intelligence, etc., make full use of the cabin Inner space.

How does an energy storage inverter work?

Energy Storage Inverter: Each battery compartment connects to a 2500kW-PCS, enabling bidirectional energy conversion between the battery system and the grid. The battery compartment employs a 20'GP non-standard container measuring 6058mm×2550mm×2896mm, housing a total of 12 battery clusters, resulting in a total system capacity of 5.016MWh.

What are the energy storage projects in China?

300MW/600MWh Wind, PV and Energy Storage Project in Fuyang, Anhui
101MW/202MWh Frequency Regulation ESS Project in Haiyang, Shandong
100MW/212MWh Standalone Energy Storage Station Project in Ge

Make a liquid-cooled solar container battery station cabinet

Containerized Liquid Cooling ESS VE-1376L

Vericom energy storage cabinet adopts All-in-one design, integrated container, refrigeration system, battery module, PCS, fire protection, environmental monitoring, etc., ...
