Manila Emergency Energy Storage Power Supply

Overview

Manila Electric Company (MERALCO) has entered into an Emergency Power Supply Agreement (EPSA) for 200 megawatts (MW) worth of baseload capacity, set to begin on Janu, to ensure a stable power supply amid a looming shortfall. What is energy secure Philippines?

The two initiatives, designed to address the need for resilient energy infrastructure and response capabilities in times of crisis, are part of the United States Agency for International Development's \$34 million "Energy Secure Philippines" program with the Department of Energy. (RTVM Screengrab).

When will the emergency power supply agreement between Meralco & Sual Power end?

Manila Bulletin Business Meralco signs EPSA with Sual Power to ensure stable supply until 2026 Manuel V. Pangilinan-led Manila Electric Company (Meralco) reported that the emergency power supply agreement (EPSA), which secures backup electricity for potential supply interruptions, is set to conclude in 2026.

How will Meralco's 200 MW contract capacity help stabilize the power supply?

The 200-MW contract capacity is expected to help stabilize the power supply in Meralco's franchise area, particularly as peak demand rises during the summer season. With energy security being a priority, MERALCO continues to assess its long-term procurement strategy while ensuring sufficient power supply for its consumers.

How is Bess transforming the Philippine energy industry?

With the commercial operations of approximately 1,000 MW of BESS facilities across 32 locations in the Philippines, we are now ushering in a new era for the Philippine energy industry through significant improvements in grid reliability and the integration of more renewable power sources to the country's diverse energy mix.
