Megawatt solar power plant in Riga

Overview

Will Lithuania build a 100 MW solar plant in Riga?

Lithuania's SNG Solar is set to build a 100 MW solar plant in the port of Riga, Latvia. Upon completion, the facility will be one of the largest solar projects in the Baltics. Lithuanian solar developer SNG Solar has signed an agreement with the Freeport of Riga Authority to construct a 100 MW solar plant in the port of Riga.

Will Latvia install a 400 MW solar power plant in 2023?

In May 2023, Latvian developer PurpleGreen Energy B announced plans for a 400 MW solar power plant near the Russian border. According to the International Renewable Energy Agency, Latvia had installed 353 MW of solar capacity by the end of 2023. This content is protected by copyright and may not be reused.

Where is a 100 MW solar facility being built in Riga?

The 100 MW solar facility will be constructed on a 177.2-hectare site in Spilve Meadows, on the left bank of the Daugava River in Riga. This project is part of the Freeport's plan to transform the area into a hub for solar electricity production, energy storage, hydrogen, and alternative fuel production, as well as an industrial and logistics park.

Will a solar energy park be built in the port of Riga?

Today, on 9 September, an agreement was signed between the Freeport of Riga Authority and the Lithuanian company SNG Solar on the lease of land in the Port of Riga in the Spilve Meadows area for the development of a solar energy park.
