

EQACC SOLAR

Middle East Industrial Energy Storage Company

Overview

Why are batteries becoming a preferred energy storage solution in the Middle East?

In the Middle East and African region, the demand for batteries has increased in the Middle East as a preferred energy storage solution primarily due to technological innovation and the reduction of battery costs.

How big is the battery market in the Middle East and Africa?

Market forecasts suggest that the Middle East and Africa battery market is projected to grow to \$9.98 billion by 2029, driven by policy support, increasing electrification, and a rise in renewable energy investments.

Who is Saeed Mohammed Al-Tayer?

Saeed Mohammed Al-Tayer, vice chairman of the Dubai Supreme Council of Energy, will inaugurate the show and lead the high-level plenary of the Middle East Energy Leadership Summit. “We’ve built this edition of Middle East Energy to reflect the dynamism, ambition, and transformative potential of the region’s energy ecosystem,” stated Mark Ring.

Will UAE deploy 300mw/300mwh of battery energy storage capacity?

The UAE should deploy 300MW/300MWh of battery energy storage system (BESS) capacity in the next three years, according to one of its main utilities EWEK. Sungrow has signed another battery storage supply deal with renewable energy and sustainable infrastructure developer Doral for projects in Israel.
