

EQACC SOLAR

Middle East Mobile Energy Storage Container Manufacturer 10kW

Home Energy Storage (Stackble system)

High Efficiency

Easy installation

Safe and Reliable

Perfect
Compatibility

Product Introduction

Scalable from 10 kWh to 50 kWh

Self-Consumption Optimization

Integrated with inverter to avoid the
compatibility problem

LFP battery, safest and long cycle life

Stackable design, effortlessly installation

Capable of High-Powered

Emergency- Backup and Off-Grid
Function

Overview

What are CATL battery-powered energy storage systems?

CATL battery-powered energy storage systems provide energy storage and flexibility in power generation. Instant utilization and energy output due to battery electrochemical technology and the technology of electricity production using gas-piston units can be combined into a single most efficient system.

How does a CATL energy storage system work?

CATL energy storage systems provide smart load management when working in parallel with the network, instantly modulate the frequency and peaks depending on the load on the external network. In this case, the ESS performs the functions of increasing and expanding peak power, backup power functions and smoothing consumption peaks.

How many GWh will a storage system produce in 2022?

The successful global experience of implementing storage systems is about 0.5 GWh for 2020-2021 and will be increased to 1.5 GWh in 2022. A number of pilot projects for the introduction of storage devices in the United Arab Emirates is being jointly prepared.

Middle East Mobile Energy Storage Container Manufacturer 10kW

ess-solutions - MKC Group of Companies

Solutions for energy storage systems (ESS) MKC Group of Companies is an official partner in energy storage devices built on CATL battery systems -- a world leader in the production of ...
