Mobile Energy Storage Containers Used in Honduras Wastewater Treatment Plants

Overview

What is containerized mobile wastewater treatment plant?

Containerized mobile wastewater treatment plant is the name given to the systems that work with the plug and play principle by mounting all the equipment in the factory in standard iso containers or specially produced containers.

What are mobile wastewater treatment and containerized sewage systems?

Mobile wastewater treatment and containerized sewage systems can be used in a very wide range of applications. They can be used for short term, mobile wastewater treatment where portable solutions are needed. But they can also be used for long term, fixed applications. They are specifically suited to applications such as:

Where are Klaro containerized wastewater treatment systems made?

KLARO containerized wastewater treatment systems are all manufactured, pre-assembled and tested at our site in Bayreuth. You can rely on the top quality of all installation parts. Thanks to the high-quality workmanship, the systems can be operated in any climate zone.

What is a containerised portable sewage treatment plant?

A containerised portable sewage treatment plant gives clients the option to relocate it onsite or easily transport it to new sites as necessary. In addition to that, the systems are modular so that they can work together in a variety of combinations effectively dealing with variable wastewater volumes to achieve any effluent quality.
