Monocrystalline solar panel installation in Costa Rica

Overview

What makes CR solar a good choice?

CR Solar energy solutions meet all required Costa Rica specifications and are 100% certified for connection to the National Grid. CR Solar uses micro-inverter technology for our solar panels which provides safety, efficiency and the flexibility to expand your system at anytime.

Does CR solar offer a cable trade-out program?

CR Solar even offers a cable trade-out program to make sure you're not left with some cables that are no longer the right length. CR Solar energy solutions meet all required Costa Rica specifications and are 100% certified for connection to the National Grid.

Does CR solar use a micro-inverter?

CR Solar energy solutions utilize a Micro-Inverter on each panel in our systems. This provides a number of key benefits in PV solar panel solution design: Safe - By attaching the micro-inverter directly onto each panel, there is no requirement to connect the panels' DC output together in series.
