# **Nauru New Energy Small Container Line Station**

## Overview

---

How can Nauru reduce its reliance on imported diesel?

In parallel, Nauru is rolling out a \$22 million renewable energy project aimed at reducing its reliance on imported diesel. The project includes a 6-megawatt solar farm which, now nearing completion, is expected to lift renewable energy's share of electricity generation from 3 per cent to 47 per cent.

What is Nauru doing now?

After years of economic stagnation, the country is now seeing positive momentum, fuelled by large-scale infrastructure investments, renewable energy projects, and a modest resurgence in tourism. A centrepiece of Nauru's infrastructure agenda is the construction of its first international seaport in Aiwo District.

Why is Nauru building a seaport in Aiwo District?

A centrepiece of Nauru's infrastructure agenda is the construction of its first international seaport in Aiwo District. This \$79.59 million project, jointly funded by the ADB, Green Climate Fund, and the governments of Australia and Nauru, is designed to increase trade capacity and improve climate resilience.

Is Nauru ready for economic revival in 2025?

Nauru is making steady progress toward economic revitalisation in 2025, with the Asian Development Bank (ADB) projecting a 2.5 per cent GDP growth for both 2025 and 2026, as outlined in the April 2025 edition of the Asian Development Outlook.
