

EQACC SOLAR

New Zealand Off-Grid Solar Container Hybrid

Overview

Should you go off-grid in New Zealand with solar power?

Going off-grid in New Zealand with solar power represents both an exciting opportunity for energy independence, a cheaper operational cost of living, and a material contribution to sustainable energy generation. This comprehensive guide will help you understand how off-grid solar works — and what it takes to get it right.

Who is off grid solar?

Off Grid Solar is a company that has been established by solar professionals who have been working building and installing Off Grid Solar Energy Systems in New Zealand for more than a decade. We specialise in battery supported solar energy systems both grid connected (ESS) and Stand Alone Off Grid Solar Energy Plants.

What types of solar systems are available in New Zealand?

Single phase and multi phase system are available, either grid connected or totally independent of the grid. We specialise in Off Grid Solar Energy solutions which we offer New Zealand wide. Our team will travel to you to complete the installation personally to the highest standard.

What is an off-grid Solar System?

A typical off-grid system includes: In an off-grid setup, there's no reliance on utility companies - everything you need to power your home or property is generated and managed on site. How it differs from grid-tied or hybrid systems: Unlike grid-connected solar setups, off-grid systems have no external backup from the national grid.

New Zealand Off-Grid Solar Container Hybrid

To Strive forward No Energy Waste

- ✓ All in one
- ✓ 100~215kWh High-capacity
- ✓ Intelligent Integration
