# Nissan solar glass

## Overview

---

What is Nissan energy solar?

Save £££s on your electricity bills with solar energy! Nissan Energy Solar enables UK homeowners to store any excess energy generated by their solar panels with their Nissan xStorage solar battery. Widely recognised for their cars, Nissan have been striving for more sustainable and energy efficient ways to power everyday life.

Is this Nissan glass a factory part?

We'll start with the most obvious—this glass is for a Nissan and is most likely the original factory part since it displays the company logo. The company that made the part for Nissan is Vitro and it was manufactured in Mexico.

What is a solar-coated windshield?

A solar-coated windshield reduces the interior temperature of the vehicle and increases cabin comfort. All this is to counter the heat and sun glazing discomfort while simultaneously making the cars stand out. Our post about "Auto Glass: Tempered vs. Laminated - what is the difference?"

" elaborates on a laminated windshield's manufacturing process.

Can a solar windshield be dark tinted?

A solar film is usually a dark film and does not emit any colors is just a heat-absorbing film. A front windshield should not be dark-tinted more than 6% in America. You can identify a solar windshield glass by the purplish haze when you observe it from the outside.
