

EQACC SOLAR

Nordic assembled solar container lithium battery pack

Overview

What does Nordic batteries do?

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid systems. At Nordic Batteries we focus on what is important: safety, reliability and performance.

What is a battery module & pack?

Battery modules and packs for applications with high energy and/or power requirements such as grid stabilization, light trucks and energy storage. Robust battery containers with batteries and charging solutions for construction, maritime, grid, and other hard-to-abate industries.

Are Nordic batteries looking for a development engineer?

Nordic Batteries are seeking a development engineer for mechanical construction and system design. Factor 47 is operative! The pilot line where Nordic Batteries will produce their first battery modules is now officially open after the visit from former Prime Minister Erna Solberg where she cut the banner to kick it off.

What is ebess battery container?

The power grid is facing a number of challenges in meeting the growing demand for renewable energy. Nordic Batteries is at the forefront of developing customized battery and energy storage solutions to meet these challenges. Our eBESS battery container is a high-performance energy storage solution designed for use in the power grid.
