

**EQACC SOLAR**

# **Nordic solar container lithium battery production plant**

## Overview

---

Where will Elinor batteries build a sustainable battery plant?

Elinor Batteries plans to build a 40 GWh sustainable Lithium Iron Phosphate battery plant near Trondheim, Norway, starting in 2026. They serve the European energy storage market for electric vehicles and industrial applications using 100% renewable energy and Nordic minerals, with Valinor's significant investment.

What does Nordic batteries do?

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid systems. At Nordic Batteries we focus on what is important: safety, reliability and performance.

What is the Nordic battery collaboration?

The Nordic Battery Collaboration is a key initiative. The decision to carry out this report was taken by Business Sweden, Business Finland, Innovation Norway and the Swedish Energy Agency together. All parties are financing the report. The report is conducted by Business Sweden.

What is the Nordic battery value chain?

The battery value chain builds upon Nordic traditional strongholds such as automotive, maritime, chemicals, manufacturing and mining. Actors within the Nordic battery ecosystem are active on global markets with strong ambitions and devotion to sustainability.

## ENERGY STORAGE SYSTEM

**Product Model**  
HJ-ESS-215A(100KW/215KWh)  
HJ-ESS-115A(50KW 115KWh)

**Dimensions**  
1600\*1280\*2200mm  
1600\*1200\*2000mm

**Rated Battery Capacity**  
215KWH/115KWH

**Battery Cooling Method**  
Air Cooled/Liquid Cooled

### **Gothenburg set to become a key hub in the ...**

A unique opportunity to enter the European Li-ion market In mid-March, Gothenburg took part in a Nordic collaboration, which had a ...
