

EQACC SOLAR

Off-grid solar-powered container used at Kabul fire station

Overview

Ecos PowerCube ® is a patented, self-contained, self-sustaining, solar-powered generator that uses the power of the sun to provide energy, communications, and clean water to the most remote, off-grid locations. Where can a portable power container be used?

The MOBIPOWER portable power container can be used virtually anywhere on the planet and will produce and store all the power you will need.

What is a solar panels on shipping container?

It not only transports the PV equipment, but can also be deployed on site. It is based on a 10 - 40 foot shipping container. Efficient hydraulics help get the solar panels ready quickly. Due to its construction, our solar panels on shipping container offers unmatched flexibility and maneuverability.

Why should you choose a modular energy storage container?

Advanced monitoring systems and IoT integration ensure optimal performance and remote management capabilities. The modular design allows for easy expansion, with the option to expand the battery storage system by 100 - 500kwh, making our energy storage container perfect for meeting growing energy demands.

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled
