## Overview

---

How much does a circuit breaker cost in South Africa?

Its basic function is to interrupt current flow to protect equipment and to prevent the risk of fire. Circuit Breaker Prices In South Africa?

It can cost between R506.06 and R1686.87 per breaker, while standard circuit breakers are around R168.69 per breaker.

What is a circuit breaker used for?

The device is designed to protect against electric shock during human contact with the surface of the equipment or its parts that conduct current. What characteristics should I look for when choosing a circuit breaker?

.

How to choose a circuit breaker?

The circuit breaker is selected based on the values of the total leakage current and the rated current. The best electric machines are those in which the maximum switching capacity for devices in the group is 6 kA. The same indicator for terminal devices should be at least 3 kA.

What is a differential circuit breaker?

A differential circuit breaker combines the functions of two separate devices: a circuit breaker and an RCD (residual current device). The device is designed to protect against electric shock during human contact with the surface of the equipment or its parts that conduct current.
