# **Oman 2025 solar container battery Energy Storage**

## Overview

---

How much will Oman's power sector invest in the next six years?

Taken together with parallel plans for the implementation of a raft of Wind IPPs and combined cycle gas turbine (CCGT) power projects, total investment in Oman's power sector is set to balloon to well over \$5 billion over the next six years through to 2030.

Will SINAW host a 300 MW solar PV project in Q2 2028?

Sinaw in Al Sharqiyah North Governorate is tipped to host a 250 - 300 MW solar PV project worth around \$200 - 250 million in investment and slated to be operational in Q2 2028.

Why do solar power plants need battery storage?

Battery storage allows solar power plants to store excess energy generated during the day for use at night or when demand is higher. Storage is key to balancing electricity supply and demand, while also supporting the grid.
