Ottawa builds 50MW energy storage project

Overview

Does Ottawa have a battery energy storage plan?

In 2025, the City of Ottawa established official plan and zoning provisions for battery energy storage uses in accordance with new Official Plan policy. BESS is an emerging technology using batteries and associated equipment to store excess energy from the electrical grid, which can then discharge energy in periods of high demand.

Is a 250-megawatt battery storage project in Ottawa down?

This post has been updated with a comment from Evolgen's Geoff Wright. A proposed 250-megawatt battery storage project in Ottawa's rural west is down but not out, after the city's Agriculture and Rural Affairs Committee (ARAC) voted unanimously last week to reject the plan.

Who approves energy storage systems in Ontario?

The primary authority for the Installation and Approval of Energy Storage Systems connected to the electrical grid in Ontario is the Electrical Safety Authority (ESA). The ESA administers Part VIII of the Electricity Act and oversees the Ontario Electrical Safety Code (OESC).

Will evolugen build a new power plant in Ottawa?

Gatineau, Quebec-based Evolgen, a subsidiary of Brookfield Asset Management, already has a contract from Ontario's Independent Electricity System Operator to build the project on a 4.5-hectare site, about 30 kilometres west of downtown Ottawa. But it's conditional on a municipal support resolution (MSR) from the city.
