

EQACC SOLAR

Ottawa solar container battery Sellers

Overview

Why should you install battery storage in your solar system?

By integrating battery storage into your solar system, you can harness more of the energy you generate and enjoy reliable backup power during grid outages. LB Electric specializes in the installation of solar battery storage systems for homeowners in Ottawa and surrounding areas.

What are the benefits of solar paired with battery storage?

Solar paired with battery storage offers a compelling advantage over standalone solar setups, bringing a host of benefits to your home. By integrating battery storage into your solar system, you can harness more of the energy you generate and enjoy reliable backup power during grid outages.

Why should you choose a solar company in Ottawa?

Most solar companies are about the sales. We're about lasting systems — and bringing the future of Ottawa solar power to your home and business. From Cumberland to Carleton Place, we're not a call center with a crew. Our local roots run as deep as our experience — and we couldn't be prouder to have installed our neighbours' solar panels since 2009.

Are solar and battery storage a distributed energy resource?

Solar and battery storage are considered a Distributed Energy Resource, or DER. This refers to small-scale power generation and storage systems that are 'distributed', meaning they are spread out closer to where the energy is needed, rather than relying on one large power source.
