Outdoor Power Medium

Overview

What are outdoor products?

Outdoor products are essential components of medium-voltage distribution grids. Siemens' comprehensive outdoor portfolio of switching devices and vacuum circuit breakers is designed for a wide variety of applications and climatic conditions.

What is a medium voltage switchgear?

This medium voltage switchgear is used in 3.3kV, 6kV, 10kV, 11kV, 12.5kV and 13.8kV power system, as control distribution unit. It can be floor standing for outdoor installation by using withdrawable ACB up to 4000A. IP 56 class. Compact structure with degree of protection cabinets, up to NEMA 4X, IP 56.

Who can use ABB outdoor medium voltage products?

ABB outdoor medium voltage products are available for Engineering, Procurement and Construction (EPCs) partners and original equipment manufacturers (OEM) as well as end customers in the utility, renewable and industry segments. ABB's medium voltage outdoor solutions can be incorporated in new infrastructure or for upgrading existing networks.

What is a medium voltage outdoor switch disconnecter?

Medium voltage outdoor switch disconnectors offer solutions for disconnection, load break operation or automatic sectionalizing of overhead lines to allow grid optimization and smart grid, whether manually operated, motor operated or automatic scheme configuration with communication capabilities.
