Outdoor Power Retrofit Kit

Overview

What is a LED Retrofit Kit?

Our LED retrofit kit is a cost-effective, long-term solution for exterior lighting fixtures. The 6 Watt, high-efficacy LED kit can replace a 100-watt incandescent source while significantly reducing your home's energy costs. The retrofit kit features 30 Nichia 757 LEDs and provides a 120-degree light output.

What is a Nichia 757 retrofit kit?

The retrofit kit features 30 Nichia 757 LEDs and provides a 120-degree light output. The LED board was built specifically for the provided 12V Power Supply, and the photocell switch makes it so you can set and forget your outdoor lighting fixture.

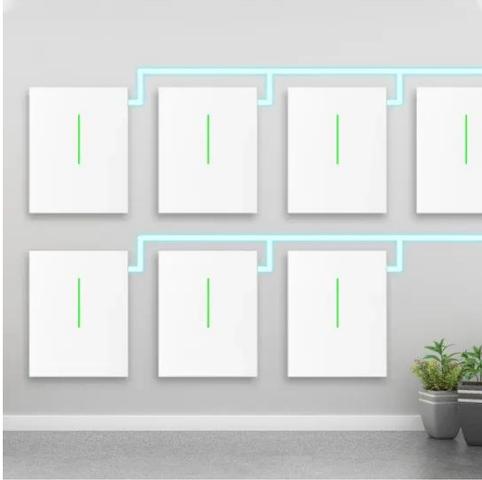

What is a retrofit kit?

Like a candle flame. The retrofit kit is a 12 volt constant voltage system. The components of the kit are not interchangeable with the old constant current system of the lantern. you must use the supplied power supply with the supplied led for the kit to function properly.

How much power does a LED Retrofit use?

The replacement LED board in the retrofit kit consumes 6-Watts. A power supply rated for 8-Watts provides more than the The original light had 8 high-power LEDs, the retrofit board has 30 mid-power LEDs. The retrofit is brighter than the original (~600 lumen vs ~1,000 lumen).
