Outdoor power adapter

Overview

How do I use a power adapter?

Secure the Connection: Firmly insert the device's charger into the adapter, and then plug the adapter into a wall socket. Make sure there is no water! **Built-in Safety Features:** Choose an adapter with surge protection to prevent power spikes, especially when charging expensive electronic products.

What is an IP68 rated outdoor power supply?

This IP68-rated outdoor power supply provides protection from the elements in an outdoor setting. This 3A potted USB (5V) power supply has a five-foot USB Micro plug to power electronic equipment, with a North American mains plug (type A) having 12 feet of wire. Shipping calculated at checkout.

What is a travel adapter?

A travel adapter is a small device that lets you to plug electronic products into various types of wall sockets. Since China uses Type A, Type C and Type I sockets, so you may need one unless your plug is a perfect match for these. **Adapter vs. Converter:** This is the most important distinction.

Do I need a power plug adapter?

You'll need a power plug adapter. **Type A** - Mostly used in the US, Canada, Mexico, Central America, China and Japan. No other plug types will fit in a type A outlet. **Type C** - The standard European plug. Commonly used in Europe, South-America and Asia, but also in quite a few other countries. Plugs of type E and F will also fit in a type C outlet.
