Panama Energy Storage Power Plant

Overview

Why did the Panamanian government cancel the GTPP power project?

In April 2024, the Panamanian government denied a request from Sinolam Smarter Energy to extend its permit for the GTPP power project through December 2025, and officially cancelled the license previously granted, effectively shelving the project.

When will a 500MW energy storage application be released?

Publication for the application will be released in February of this year. Panama has launched a 500MW tender auction for renewables and energy storage, the first in Central America to include storage.

When will a Panama plant start in 2023?

In February 2023, Panama's public service authority ASEP extended the plant's license for another year, calling for commercial startup to begin no later than Ma.
