Payment for 15MWh Mobile Energy Storage Container in Poland

Overview

What is Poland's energy storage subsidy?

Learn about Poland's €1 billion energy storage subsidy aimed at installing 5.4 GWh of BESS by 2028, strengthening grid stability and accelerating the green transition.

When will the energy storage scheme be launched in Poland?

Call for applications under the Scheme "Energy storage facilities and related infrastructure for improving the stability of the Polish electricity grid" will be launched already this year. Subsidy contracts are to be entered into by the end of 2025, while the period for spending the funds ends with 2028.

Can Poland co-finance electricity storage facilities?

Poland's National Fund for Environmental Protection and Water Management (NFOŚiGW) has opened a call for applications to co-finance electricity storage facilities, with funding from the Modernisation Fund. The programme has a total budget of \$1.02 billion and aims to improve grid stability and renewable energy use.

How much money does Poland spend on battery energy storage?

Poland has finalized a comprehensive subsidy program aimed at accelerating the deployment of battery energy storage systems (BESS), with a total budget of PLN 4 billion (approximately €1 billion).
