Phnom Penh Communications builds 5g base station

Overview

Why is Cambodia integrating 5G into the telecommunications sector?

This move is part of the country's broader strategy to enhance digital government, businesses, and citizen engagement. The Ministry of Posts and Telecommunications (MPTC) is working on integrating 5G into Cambodia's telecommunications sector, focusing on expanding bandwidth and network coverage to meet the growing demand for high-speed internet.

What is Cambodia's first 5G use case?

Cellcard has today announced Cambodia's first 5G use case - a telemedicine service at four locations across Phnom Penh to help the nation's most critically ill during the Covid-19 crisis. .

Is 5G a long-term solution for Cambodia's digital future?

Additionally, long-term initiatives, such as undersea internet connections, are already in the works. At a recent conference summarizing Cambodia's digital progress from 2020 to 2024, Cheang Sopheak, the director-general of MPTC's Directorate General of Radio Frequency Spectrum Management, discussed the transformative potential of 5G.

Is 5G coming to Cambodia?

The Ministry of Posts and Telecommunications (MPTC) is working on integrating 5G into Cambodia's telecommunications sector, focusing on expanding bandwidth and network coverage to meet the growing demand for high-speed internet. Additionally, long-term initiatives, such as undersea internet connections, are already in the works.
